Dear Ms Hardee,

Things were bad at Carriage House. Someone on the staff stole new clothes before I got to wear them. Released oxygen from my Oxygen tanks before I could use them and other items including my phone. A young doctor took me off of Serenquel my antipsychotic drug in January. I got sick and Court ordered to Greenville Memorial Hospital Emergency room April 13. Was evicted from Carriage House on April 12th. I was in a small room in the Emergency Room for 5 weeks before Stephanie Worthington put me in Patrick B. Harris. I had no way to call you at Carriage House. I had my new phone 2 weeks before it was stolen. And when I got Stephanie only a miracle. I wanted to call you but Rita would not let me use the Carriage House phone. Stephanie promised to get me a room at McKinney House I think in Maudlin, but she keeps having family Emergencies. She does not believe I need a Respiratory Doctor and a Respiratory doctor prescribed me oxygen at the hospital and at home for 12 weeks. and ~~they~~ the doctor at Patrick B Harris doesn't think so either. I have had a horrible time with my oxygen level going below normal and Nurses won't record it and it's...

which I have after getting inhalers in the morning. Once when it was way below 90 (3 days in a row. A nurse gave me oxygen for 15 minutes. It went to 93. my doctor Watts changed my medicine two minutes after I met her in Admissions. Stephanie Worthing told her to make the medicine list as short as possible and as cheap as possible. She took me off my vapor in haler and Brevo and threatened to take me off of albuterol. She took me off of eye drops prescribed by ophthalmologist. I had so much Anxiety at Carriage House that my hair came out in clumps. They took me off of Restoril too and did nothing different from what I had for anxiety at Carriage House. I have Asma and she made a joke out of it. I have Medicare and a \$500 dollar a month Trust fund. I would like to get a psychiatrist of my own, an ophthalmologist and respiratory Doctor and some dental work done. Since you were my social worker or contact for one (don't know) Can you help me? ~~After having Stephanie before for 6 years I remember the good and bad and forgotten how pushy and arrogant arrogant. I prefer a doctors opinion and she is not.~~

Sincerely, Jane McNaugan.
