RE: Light it up Green for MD

To whom it may concern:

I kindly ask that you read the attached letter. This is a worthy cause that does not receive much attention. **We are NOT asking for a donation.** Our goal is to Light it Up Green in as many places as we can around the world to promote awareness and increase support for all the families afflicted with this debilitating illness. Muscular dystrophy affects 1 in every 3,500 – 6,000 births each year in the United States alone.

Muscular dystrophies are a group of diseases caused by defects in a person's genes. Over time, the muscles weaken, decreasing mobility and makes the tasks of daily living difficult. This is a rare disease that we need to shed light on in order to expand awareness.

Would you Light it Up Green on August 4th to raise awareness?

Thank you for your support!

p.p.

March 22, 2016

Dear Friend,

Light it up Green for Muscular Dystrophy is a National campaign created by me, Nadine Kirby (President and mom of a young adult with Duchenne). As a way to give back and help all of our MDA families by lighting cities around the country Lime Green for all MDs & NMDs. We have partnered with the Muscular Dystrophy Association (a world known nonprofit organization). Together, it is our hope to promote awareness and increase support for children, adults and the families affected by any of the **9** muscular dystrophies and the **43** neuromuscular diseases. We are asking for your help to promote increased awareness for Light it Up Green for MD and **MDA**.

Children and adults with muscular dystrophy and/or neuromuscular disease live with chronic, debilitating and progressive symptoms **365 days a year**. Muscular Dystrophies/Neuromuscular Diseases don't discriminate, they affect young & old, and across all races. There is no cure! We need your help now! Awareness promotes research, research creates new methods of treatment, and treatment prolongs lives.

LIUG and MDAs ability to make a difference by educating the public about MD and NMDs counts on your support by lighting your building/Landmark Lime Green for awareness on August 4th!!!

If you are interested in helping us it would be greatly appreciated by MDA families across the U.S... Please feel free to give us a call with any questions or concerns.

Thank you for considering our request.

Best Regards,

Nadine Kirby, President
