**Subject:** Request for comment on DEW

Rob,

I'm doing a story for the weekend about where DEW has been and is now. Some legislative leaders, including Sen. Bryant and Rep. Bingham, say they still have some concerns in light of the LAC audit. How does the governor feel about the changes that have been made and the progress the agency has shown?

Tim

**Subject:** Reaction to House school choice bill

Quote from Rob Godfrey, Haley spokesman: "Governor Haley has always believed that giving options to parents, children, and teachers is one of the key issues to success in education. We applaud the House for their leadership and encourage the Senate to do the same."
