Subject: Fwd: Hurricane Matthew Timeline

Attachments: Projected Weather Schedule for Governor.docx
ATT00001.htm

All,

Attached is a weather timeline over the next day or two showing when the worst of the hurricane will impact our state. I thought it would be helpful for all of you to have, but this is not meant for public dissemination.

Subject: Hurricane Matthew Timeline

Attached is a timeline of when Tropical Storm and Hurricane Force winds are expected (give or take an hour either side) along the SC coast. This is based on the latest (2 pm advisory) from the National Hurricane Center. This was put together for the Governor's Office, but hopefully this will also help with some of the timing questions we are getting at the SEOC.

Thanks,
John Q.
