Tony Kester, we'd like to speak with you regarding the SAM Renewal for **South Carolina, State Of** set to expire. The SAM Registration Renewal Program with Vendor Profile Optimization is not only designed to get South Carolina, State Of in front of Procurement Officers, but also makes sure you stand out above your competition, get easily found by Procurement Officers, and ensures your registration is in order to effectively compete for Contract and Grant opportunities.

We'll review your SAM from a Procurement Officer's point of view and ensure its effectiveness. Our end goal is to make sure your SAM is visible through various Databases when South Carolina, State Of's services are needed for **direct contracting, teaming, or subcontracting**. - Did you know that a high percentage of companies in SAM have errors? Simple things like not the right NAICS Code, or missing a Capabilities Narrative, Keywords, References, or other Critical Information.
