Subject: THIS IS WHY AMERICANS ARE OPPOSED TO ALLOWING "SYRIAN, MUSLIM REFUGEES" INTO AMERICA AND ESPECIALLY OPPOSED TO ALLOWING THEM INTO SOUTH CAROLINA ANYWHERE!!!!!!

[What do you really know about your muslim neighbors? The Bloody Future of the West](#)

MOHAMMED, ISLAMIC HISTORY AND THE BLOODY FUTURE OF THE WEST

March 22, 2016 by [Alex Charles](#)

Paris, November 2015 **THERE CAN BE NO CO-EXISTANCE
THERE IS NO NEGOTIATION
IT IS EITHER THEM - OR US
ISLAM IS NOT A 'RELIGION'
ISLAM IS A POLITICAL DICTATE
WHICH DEMANDS CONVERSION OR DEATH**

Can I ask you a question?

Have you ever had that sickening feeling deep down inside as if some inner voice was trying to warn you that something

is wrong?

It almost feels like the harder you try to push it away the louder it gets, gnawing away at your conscience.

And even if you try to ignore it... you can't.

Every time there is a new Islamic terror attack and you learn the horrific details, that awkward and nauseating feeling comes back again.

It's trying to warn you, "Something is very wrong."

And after every Islamic terror attack, our politicians and media try desperately to assure us of two things:

- 1. These "terrorists do not represent Islam" and**
- 2. We are a multicultural society that welcomes Muslim immigration**

And yet that inner voice deep down inside you remains.

Because your inner voice is correct.

Even still, we all want to believe we can live in a perfect multicultural society where everyone will get along. This is a central aspect in Western democracies throughout the world. We've been told this our entire lives and we all sincerely want it to be true.

But eventually we need to look at the real facts, because things aren't getting any better... and deep down you know it.

Does Western multiculturalism work with Islam?

Multiculturalism did not work for the Christians in Turkey, the Buddhists in Afghanistan, the Hindus in Pakistan, the Zoroastrians in Iran, or the Christians throughout the Middle East.

In fact, the blood of hundreds of millions of people has been sacrificed on this altar which is the 1,400 year struggle between Islam and non-muslims.

But surely our multicultural model will work out fine for us today, right?

To understand the past, present, and future, we only need to understand mohammed.

Mohammed is the Key to Understanding Islam

For most of us Westerners, it's very difficult to reconcile the nice muslim woman at work with the ISIS jihadist beheading Christians in Iraq. Different 'experts' only add to the confusion as they debate whether islam is a religion of peace or a religion of violence.

So what's the correct answer?

We'll just ask mohammed.

The koran states 91 times that mohammed is the perfect muslim. He is the perfect example that every muslim throughout the world is commanded to imitate. Everything about mohammed comes from the sira (mohammed's biography) and the hadith (mohammed's traditions). The koran, sira, and hadith make up the entire doctrine of islam. These three works are called the trilogy.

mohammed outranks every "expert" you see in the media.

In the Beginning, Islam was Peaceful, Tolerant and Multicultural

When mohammed first began preaching the religion of Islam in mecca, he was generally peaceful and tolerant of other religions. In the koran, this period of time is known as the "mecca koran" and does not contain any mention of jihad. It states, "There shall be no compulsion in [the acceptance of] the religion" (koran 2:256).

mohammed prayed at the kabah, a stone building used by many different religions as a place of worship.

When political and religious leaders talk about islam as a religion of peace, they will often use this section of the koran as their evidence.

As time wore on, mohammed became more verbally aggressive with anyone who disagreed with him. He was eventually driven out of mecca after 13 years by the local tribes:

“mohammed continued to preach the glory of allah and condemn the quraysh religion. He told them their way of life was wrong, their ancestors would burn in Hell, he cursed their gods, he despised their religion and divided the community, setting one tribesman against the others. The Quraysh felt that this was all past bearing. Tolerance had always been their way.” (Sira; Ishaq:125)

Jihad Brings Explosive Growth and the Spread of Islam

Being driven out of mecca marked the transition point. The last 10 years of mohammed’s life is reflected in the medina section of the koran where his strategy changed.

mohammed transitioned from a preacher in mecca to a warrior and politician with one goal: kill or subjugate everyone under islam.

In islam, the lowest form of life is the Kafir, which is the non-Mmslim.

After leaving mecca, mohammed’s persecution of all Kafirs was relentless, as directed in the koran:

“When you encounter the Kafirs on the battlefield, **cut off their heads** until you have thoroughly defeated them and take the prisoners and tie them up firmly.” (Koran 47:4)

The following passage comes directly from the sira and illustrates the brutality of jihad in the quest to dominate all non-muslims:

After the battle mohammed put the Jews under siege for twenty-five days. Finally, the Jews offered to submit their fate to a muslim, saad, with whom they had been an ally in the past. His judgment was simple. Kill all the men. Take their property and take the women and children as captives. mohammed said, “You have given the judgment of allah.” The captives were taken into medina. They dug trenches in the market place of medina. It was a long day, but 800 Jews met their death that day. **mohammed and his twelve year old wife sat** and watched the entire day and into the night. The apostle of allah had every male Jew killed. mohammed took the property, wives and children of the Jews, and divided it up amongst the muslims. mohammed took his one fifth of the slaves and sent a muslim with the female Jewish slaves to a nearby city where the women were sold for pleasure. mohammed **invested the money from the sale of the female slaves for horses and weapons.** (Sira; Ishaq:684, 690, 693)

Jihad and political persecution under Sharia law produced much better results than being tolerant and preaching the religion of islam.

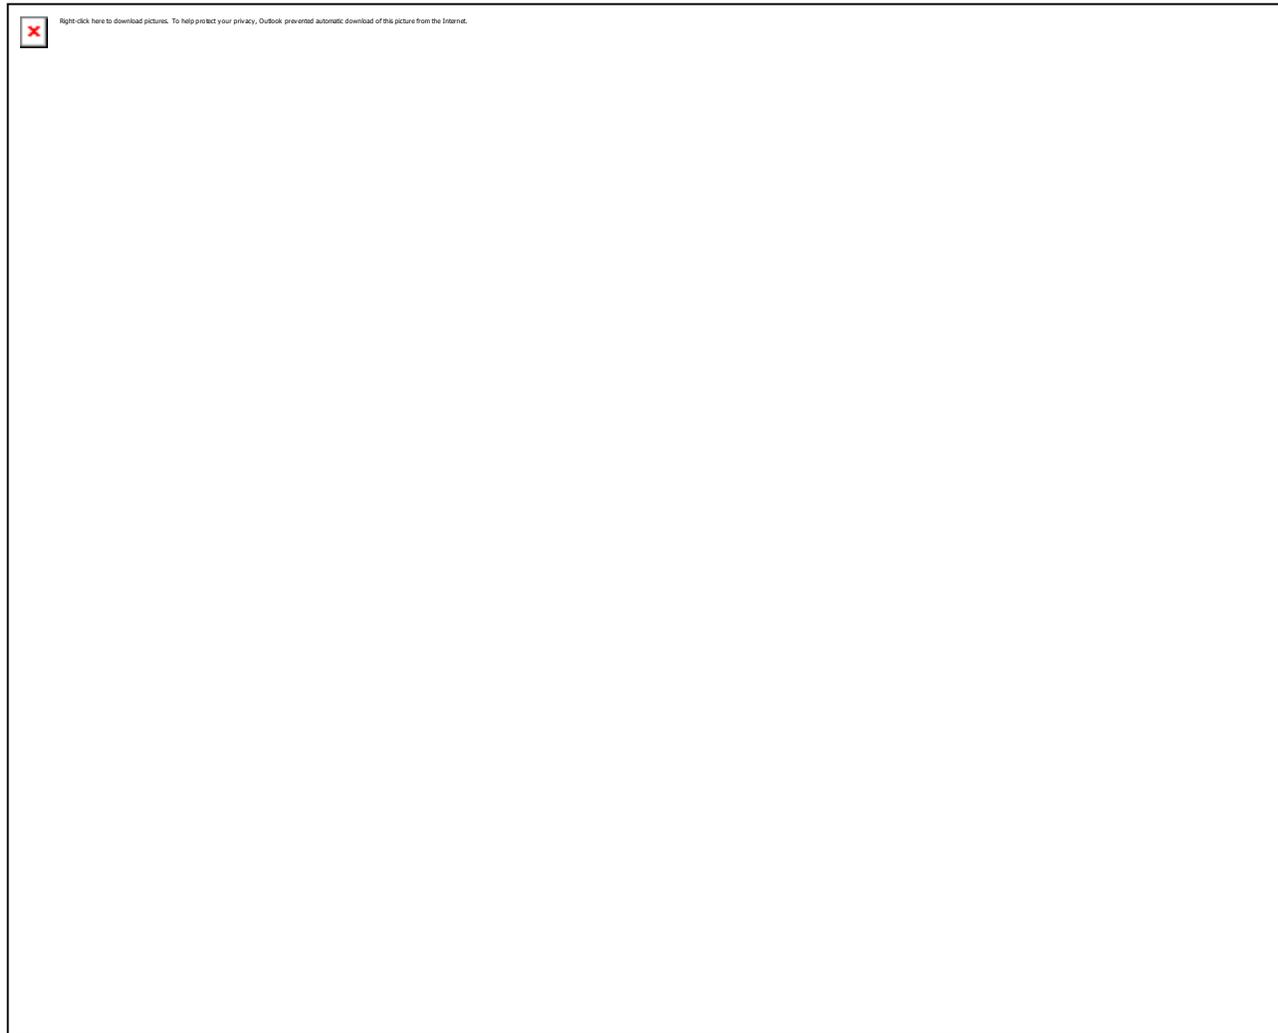

Image credit: [Dr. Bill Warner \(CSPI\)](#)

In the last ten years of mohammed's life, islam completely decimated the Arabian peninsula. mohammed averaged one major battle every six weeks (not including assassinations and mass executions). When mohammed changed his strategy to include migration, jihad, and politics (Sharia law), islam conquered everyone in Arabia.

Sharia law is islamic law based on the three works of the trilogy: koran, sira, and hadith. islam dictates that Sharia law comes from allah and it must replace all man-made legal codes and constitutions. Most of Sharia law is based on the examples from mohammed, which come from the sira and hadith.

Sharia law is completely incompatible with all non-muslim

government structures – including every Western democracy. It requires the end of free speech, free thought, freedom of religion, and freedom of the press.

This is the political nature of islam.

This is what makes islam different from every other religion.

Sharia law is rapidly spreading throughout Europe under the guise of religious tolerance and multi-culturalism. The demands for the implementation of Sharia never stop until all of society is under Sharia law.

Dualism: Islam's Secret Weapon

The dualistic nature of islam is that it is both peaceful and violent.

Dr. Bill Warner coined the term dualism to describe the paradox of islam being both peaceful and violent at the same time.

The nice muslim lady at work and the ISIS jihadist who beheads Christians in Iraq are both following the Islamic doctrine found in the sira, hadith, and koran.

This is confusing because **we assume islam must be either peaceful or violent**. And since you probably know some nice muslims from work or school, islam must be the “religion of peace,” right?

The answer is that islam is both peaceful and violent because mohammed was peaceful at first and then violent after leaving mecca.

When islam is weak and surrounded by a large group of non-muslims, it is generally peaceful and tolerant (mecca koran). As the muslim population grows and strengthens, muslims become more forceful in the implementation of Sharia

law and making political demands (medina koran).
It is the same trend throughout 1,400 years of islamic history.
islam is never static.
It gradually grinds on, taking over larger and larger sections of the host country.

The later (more violent) sections of the koran take precedence over the earlier (more peaceful) sections. This is called abrogation. With every country throughout history, as the percentage of muslims grows and Sharia law strengthens, the non-muslim aspects of a society and culture erode away. This process is slowly and steadily unfolding before our eyes throughout the Western world.

Under full Sharia law, Kafirs have no civil rights and are called 'dhimmis'. This practice started when mohammed subjugated the Jews in Kaybar. **Rather than being slaughtered, they were allowed to live by giving up all rights and paying 50% of their wealth as a tax called the jizya:**

“Make war on those who have received the Scriptures [Jews and Christians] but do not believe in Allah or in the Last Day. They do not forbid what Allah and His Messenger have forbidden. The Christians and Jews do not follow the religion of truth until they submit and pay the poll tax [jizya], and they are humiliated.” (Koran 9:29)

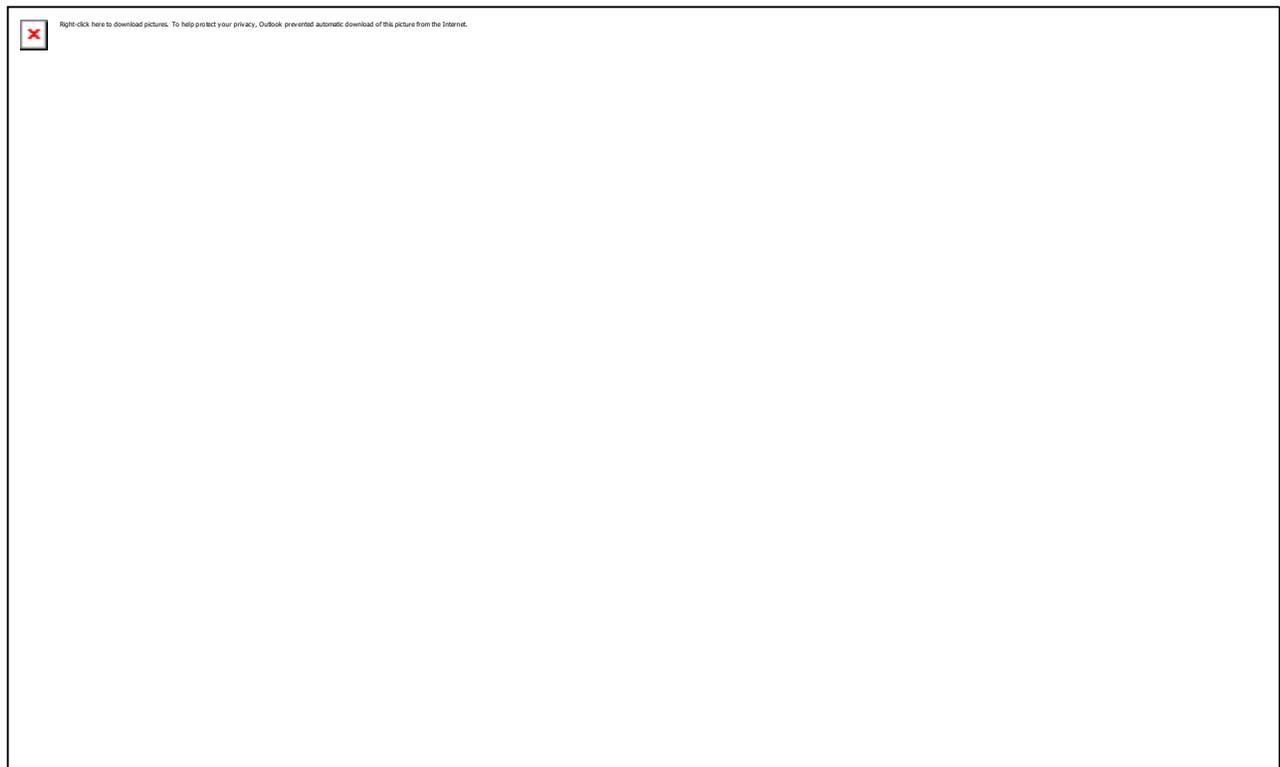

Today when [muslims in Western countries](#) talk about how we can all live peacefully together under “divine law,” this is the arrangement. **It is islamic Sharia law which eradicates all non-muslim aspects of the culture and society.**
It is the antithesis of a liberal Western democracy.

Islam is a Civilization, Which Extinguishes all other Civilizations

Forget about islam being just a religion that can peacefully coexist with other religions.

islam is much more than a religion. It is an entire civilization that must completely dominate every aspect of a society.

Turkey illustrates the gradual process of how a country that was once 100 percent Christian becomes 99.7 percent muslim (today).

Data source: [Dr. Bill Warner \(CSPI\)](#)

Germany is the perfect example of this process unfolding today in the West. In the 1960s the German government opened its doors to mass immigration of muslims Turks. (Note: mass immigration from muslim countries is still underway in nearly every Western country throughout the world.)

Today in Germany we have “No-Go zones” under Sharia law, schools that have been forced to ban all pork meat, the elimination of traditional Christian holidays celebrated by German children, segregated swimming pools, and an increasing number of muslims who refuse to see doctors of the opposite sex. Berlin opened Europe’s first clinic devoted to treating victims of female genital mutilation – a disturbing practice in islamic society.

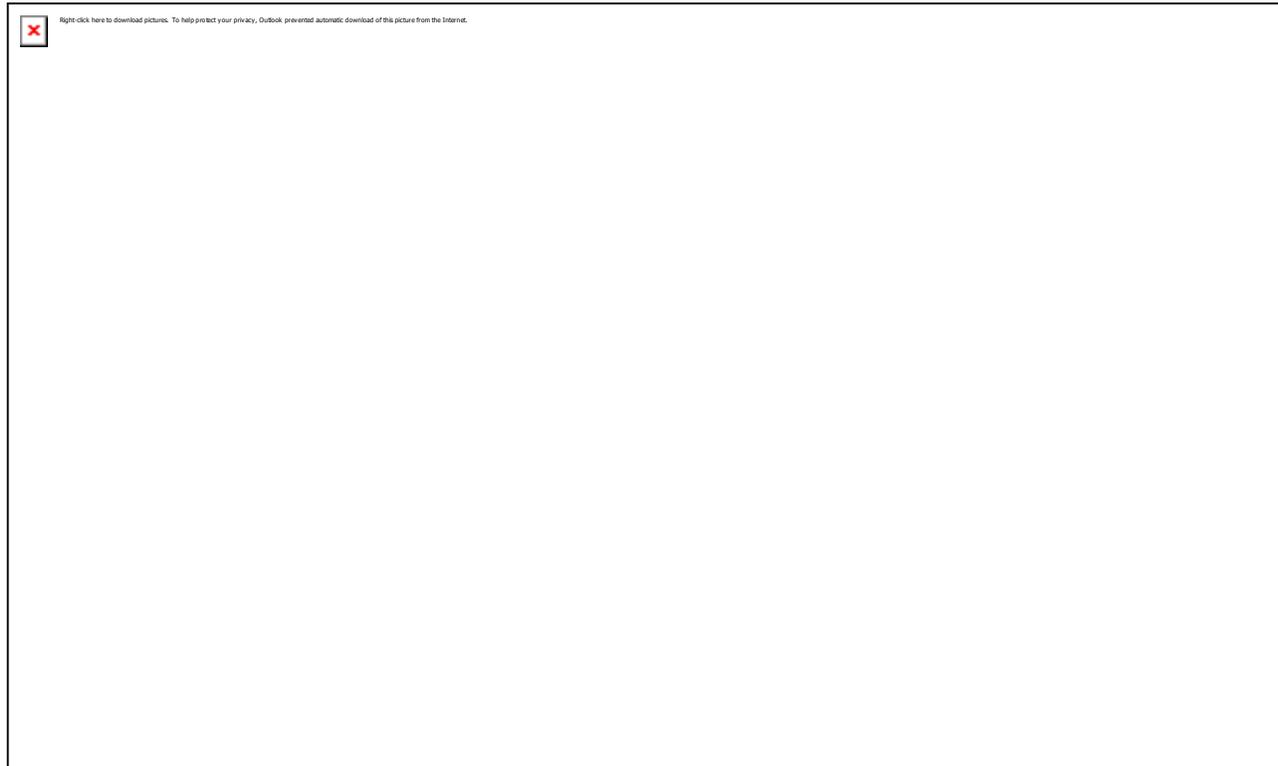

As muslims grow in numbe, through high birth rates and mass immigration, the results are always the same. The native culture, people and civilization are annihilated and totally replaced by islam and Sharia law.

islam commands muslims not to be friends with the Kafirs:

“Believers should not take Kafirs as friends in preference to other believers. Those who do this will have none of Allah’s protection and will only have themselves as guards. Allah warns you to fear Him for all will return to Him.” (Koran 3:28)

Integration simply does not work.

It can never work long-term because islam is a civilization that is incompatible with all other civilizations. We see this today as Turkish children who were born and raised in Germany stay in muslim/turkish neighborhoods and harbor resentment toward native Germans.

The following three factors will quickly shift Western civilization to the right in terms of the graph above:

- 1. An aging European (non-muslim) population with very low birth rates**
- 2. Endless mass migration from muslim countries**
- 3. Very high birth rates among muslim families**

Europe may be further ahead in the process than Australia, America and Canada but this gradual process grinds on everywhere throughout the West.

This is civilizational warfare.

And no, your politicians did not ask if you wanted your civilization, culture and way of life to be displaced.

You don't get to vote on that.

Do you see what's happening to the West?

Total annihilation.

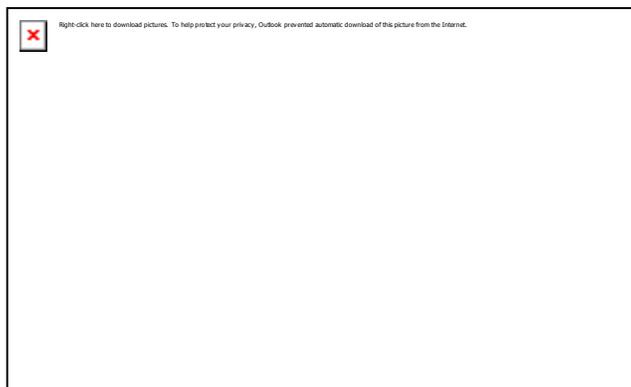

It's a slow and patient process that does not stop until a society is 100% muslim.

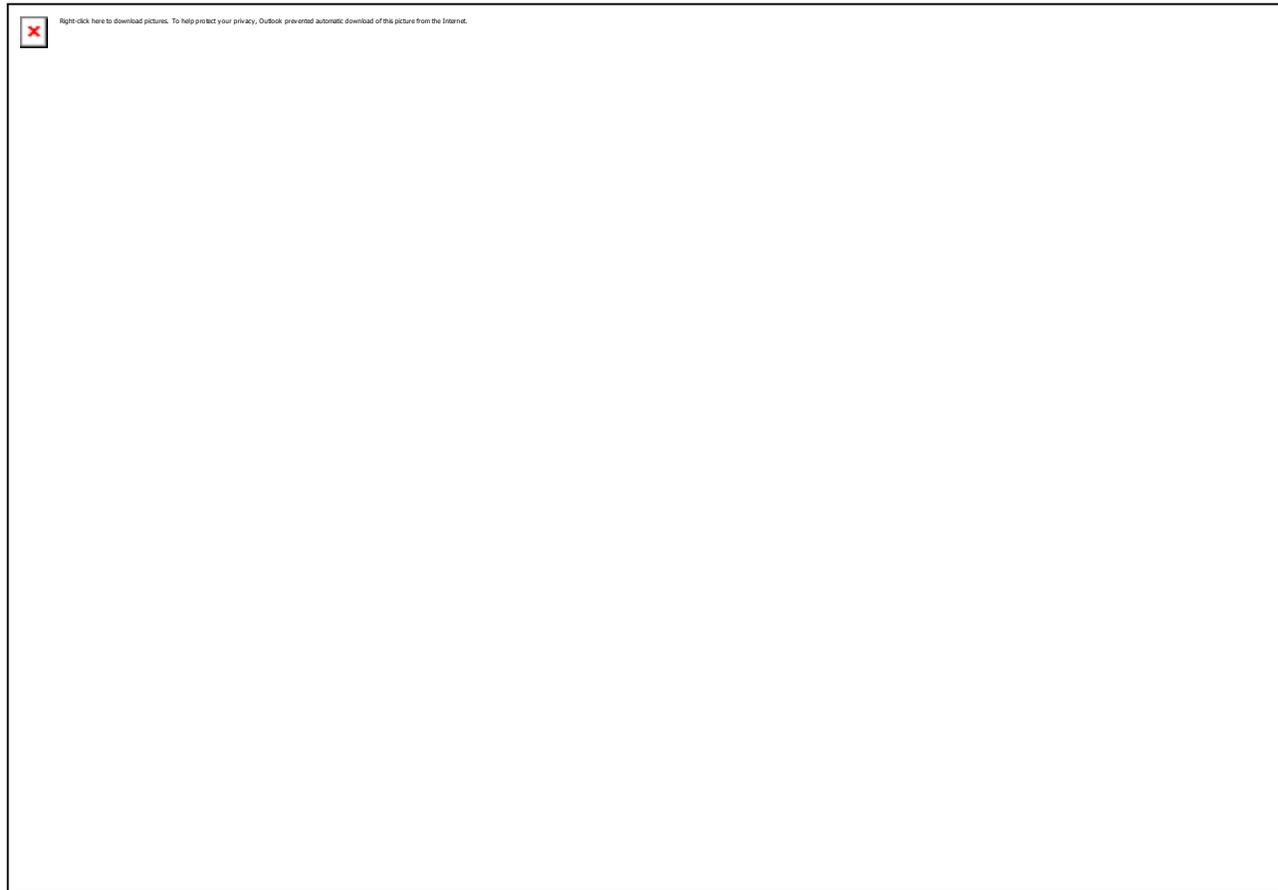

“They plot and scheme against you [mohammed], and I plot and scheme against them. Therefore, deal calmly with the Kafirs and leave them alone for a while.” (koran 86:15)

It's the same strategy that destroyed the Hindus in Pakistan, the Buddhists in Afghanistan, the Zoroastrians in Iran, the Coptic Christians in Egypt, and the Orthodox Christians in Turkey.

This strategy of jihad and Sharia law has led to the deaths of approximately 270 million non-muslims and the total destruction of countless civilizations.

The bruised and battered head of Western civilization is now on the chopping block as **our politicians and media prepare us for the final blow.**

Muslims in Europe

The Bloody Future of the West

When you understand mohammed everything makes sense, because history just repeats the same story. mohammed is the doctrine of islam and the perfect muslim, as stated 91 times in the koran.

The myths of an islamic “Golden Age” are just that – myths. Subjugation under Sharia law could never be “golden” if you were a Kafir (non-muslim).

Just like the 270 million Kafirs who have died before us, the future does not bode well for us Western Kafirs. History is the map of our future.

Nearly every week in Europe we get more news connected to “islamic terrorism,” which we should just start calling jihad. Our politicians and media tell us these people are terrorists, or “islamic extremists.”
But that’s a lie.

They are practicing muslims who follow the koran and mohammed’s example. According to the official doctrine of islam, there is nothing “extreme” about their actions.

islam commands all muslims to wage jihad against the Kafirs:

“They [Kafirs] will be cursed, and wherever they are found, they will be seized and murdered. It was allah’s same practice with those who came before them, and you will find no change in allah’s ways.” (koran 33:60)

“Fight them until you are no longer persecuted and the religion of allah reigns absolute, but if they give up, then only fight the evil-doers.” (koran 2:193)

“Do not think that the jihad is over. Soon islam will bring terror to the Kafirs.” (Sira; Ishaq:599)

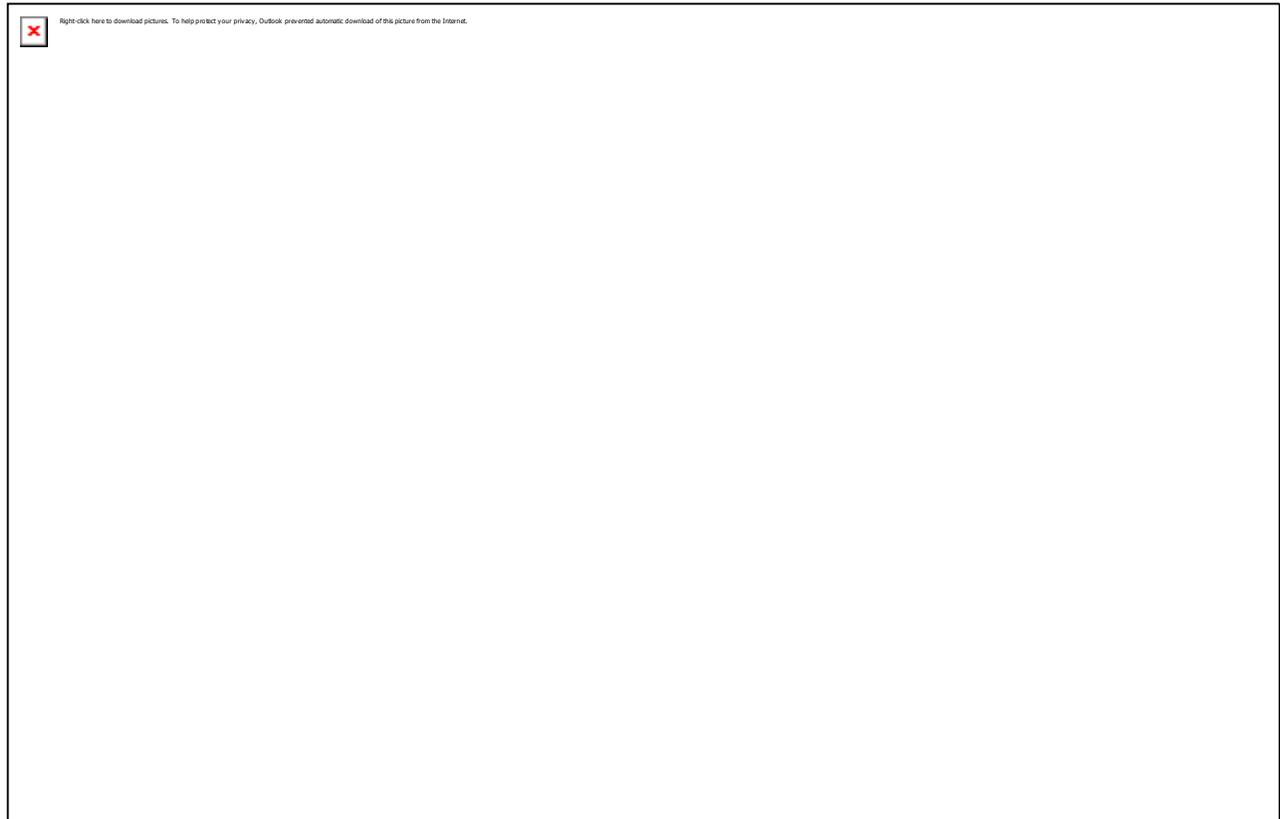

“mohammed: The man who dies without participating in jihad, who never desired to wage holy war, dies the death of a hypocrite.” (hadith; muslim:020,4696)

no government policy or war in the Middle East will ever change the doctrine of islam.

We can see this trend clearly in Europe. Polling data show that **Europe’s younger generation of muslims strongly support violence to bring about Sharia law**:

- 35% of young muslims in Britain believe suicide bombings are justified

- **42% of young muslims in France believe suicide bombings are justified**
- **22% of young muslims in Germany believe suicide bombings are justified**

muslims are waging endless jihad everywhere in the world where a society is part muslim and part Kafir: Sudan and much of Africa, India (especially in the north), southeast Asia, and throughout the West.

It will only end when everyone is dead or has converted to islam.

This has been the doctrine of islam for 1,400 years and it won't change.

Are you starting to see the predicament we're in?

The Survival of Western Civilization

If you speak out about the islamization of the West, refugee policies, or mass migration then you are called racist, bigoted, and/or islamophobic.

But this is not about hate, islamophobia, politics, or refugee policies.

It's simply about the survival of Western civilization.

The sad truth is that a multicultural society cannot survive with islam.

History is quite clear on this topic: multiculturalism never works long-term with islam.

Never.

Over time, a country will be either by 100% muslim or 0% muslim.

Multiculturalism is just a transition phase on the path to the final result.

And islam is very patient.

It may take generations or even centuries to achieve, but **islam grinds on relentlessly:**

“Believers! When you confront their army stand fast and pray to allah without ceasing so that you will be victorious. Obey allah and His messenger, do not argue with one another for fear that you will lose courage and strength. Be patient for allah is with the patient.” (koran 8:45)

After Spain was conquered by muslim armies it did not remain a “golden” multicultural society. No, European **Christian armies pushed the muslims completely out of Spain with force.**

We all want multiculturalism to work, because we've been told our entire lives it's a fundamental aspect of Western countries. **But the survival of Western civilization depends on us facing the facts.**

We Must Understand Islam

Today we are being systematically deceived about the true nature of islam. Our politicians, media, education system, and religious leaders tell us islam is a religion of peace while whitewashing all islamic history, and deceit is a central component of jihad:

“mohammed said: war is deceit.” (hadith; bukhari 4,52,267)

To protect our civilization we must understand the true nature of islam:

“Any person who rejected the revelations of mohammed would be eternally punished in Hell. The culture of religious tolerance in Mecca now had a new religion which preached the end of tolerance. Only islam was acceptable.” (Sira; Ishaq:161)

History is very clear: if we fail to change our disastrous policies, Western civilization will be slowly eradicated. The first step is getting informed and informing others. We're putting a crash course together called “Islam and the West” which should be available within the next few months. If you're interested, you can [learn more by clicking here.](#)

In the meantime, could you do me a favor? Share this article. Not for the traffic, but because more innocent people will lose their lives as we fail to address the facts about islam. This article may get censored on social media, so emailing it out

might be a good idea, too.

Maybe reading this will help wake a few people up to what's happening. By addressing the real facts we can start making better decisions.
