Subject: HEMP FOR MOTHER EARTH.....COMMON SENSE, INSIGHT, IMAGINATION,
INGENUITY & INTEGRITY TOO!

Senator, I would like to inform you of the vast potential of bring the first Hemp Fiber Board to South Carolina? Yes! I tried to get Mr. Yancy McGill to use the closed fiberboard plant in Kingstree for this business that be processed from agriculture to manufacturing by our Citizens creating small businesses and jobs that stays within the STATE of South Carolina. Hemp Fiber board is stronger, more elasticity, never molds or mildews, no poisons when burned, environmentally safe....

Now you may think this Bearded Hippie does not know what's happening with Hemp? Hemp for Mother Earth was created by me in 2005 to bring God's most useful seed/plant GIFT to our Planet out in open from Controlling Corporation thieves....Killing our planet and inhabitants while Politicians smile.

I wrote Governor Haley in 2010 asking her to create first Hemp Plastic Factory in United States for our Citizens to create small businesses and jobs grown and manufactured right here! You see she's more interested in bringing in Corporations from other Countries instead of letting our Citizens control our destiny. We can be creative if you get Chief Keel and Clemson off our necks and stop protecting their millions from the FAKE DRUG WAR! Let our Citizens FREE to have Middle Class and transform life into Garden of Eden!!!! I hope God inspires you to help Citizens like he turned my life around in 2005 when he sent me on this quest!!

Will you answer me????????????? Creighton Coleman knows all this but is afraid of SLED!!!

EuWe Eugen Wexler US Plastics in Anderson County

**EuWe Eugen Wexler US Plastics, Inc. establishing operations in
Anderson County**

Automotive supplier investing \$11.1 million in Upstate plant

COLUMBIA, S.C. – EuWe Eugen Wexler US Plastics, Inc., a subsidiary of the Germany-based EuWe Group, is establishing manufacturing operations in Anderson County. The automotive supplier is investing \$11.1 million to open its first U.S. facility in the Upstate of South Carolina. The investment is expected to create 49 new jobs in Anderson, S.C.

Established in 1968 as a supplier of only metal products, the EuWe Group has grown tremendously since its inception. In 1970, the company expanded its production offerings to include plastic parts. Then, in 1993, the EuWe Group established its first international operations with a facility in Mexico. Today, the firm employs more than 1,700 workers in three countries and exclusively supplies the automotive industry. It boasts a client list featuring 10 of the world's largest automobile manufacturers.

The opening of EuWe's Anderson County facility will allow the company to better serve its North American customers. Located off of I-85 at Alliance [Industrial Park in Anderson](#), S.C., EuWe's South Carolina operations will focus on the production of automotive plastic interior parts.

EuWe's Anderson County operations are expected to reach full-scale production by 2017, with hiring expected to begin in the second quarter of 2016. Those interested in joining the EuWe Group team should visit the company's jobs page online at bit.ly/euwe-jobs <<http://bit.ly/euwe-jobs>>. Support from the South Carolina Power Team and its partner, Blue Ridge Electric Cooperative, were instrumental in the project's recruitment.

For more information on the EuWe Group, visit www.euwe.com <<http://www.euwe.com/>>.

QUOTES

"EuWe is excited to soon start its first operations in the United States. When looking for the right site, we were impressed by the professionalism and also the welcoming demeanor of the people in South Carolina and especially those in Anderson County. As a company that is still managed by its founding
