Subject:

Katherine, hope you are well! I have a question about whether or not the Governor would like to welcome a new tenant at my project ,the Corporate Center I-85 in Spartanburg. The name is Holroyd Precision Rotors which occupies 35,000 sq ft- they manufacture screws for compressors. They supply the entire USA and Carrier is their largest customer.

It is a British company owned by a Chinese corporation. They want to have an opening ceremony toward the end of Sept. and they have asked me to invite Governor Haley.

I know she is always busy doing great things for our state but take a look at her schedule and let me know-

The head of the Chinese Co. needs advance notice so he can get permission to travel out of China?

Also are you coming up to Marthas Vineyard this summer?

Just finishing my 10th 50,000 sq ft building by the way. Say hello to Tim.

Best regards,Pete
