Center for Medicaid and State Operations

Dear State Medicaid Director:

The Center for Medicaid and State Operations (CMSO) is issuing this State Medicaid Director Letter to strengthen the integrity of the Medicaid program and help States reduce improper payments to providers. This letter advises States of their obligation to direct providers to screen their own employees and contractors for excluded persons. This letter specifically:

(1) Clarifies Federal statutory and regulatory prohibitions regarding Medicaid payments for any items or services furnished or ordered by individuals or entities that have been excluded from participation in Federal health care programs;

(2) Reminds States of the consequences for failure to prevent payments for items or services furnished or ordered by excluded individuals and entities;

(3) Sets forth the Centers for Medicare & Medicaid Services' (CMS) policy with respect to States' responsibility to communicate to providers their obligation to screen employees and contractors for excluded individuals and entities both prior to hiring or contracting and on a periodic basis, and the manner in which overpayment calculations should be made; and

(4) Identifies the List of Excluded Individuals/Entities (LEIE) as a resource providers may utilize to determine whether any of their employees and contractors has been excluded.

Background

The HHS Office of Inspector General (HHS-OIG) excludes individuals and entities from participation in Medicare, Medicaid, the State Children's Health Insurance Program (SCHIP), and all Federal health care programs (as defined in section 1128B(f) of the Social Security Act (the Act)) based on the authority contained in various sections of the Act, including sections 1128, 1128A, and 1156.

When the HHS-OIG has excluded a provider, Federal health care programs (including Medicaid and SCHIP programs) are generally prohibited from paying for any items or services furnished, ordered, or prescribed by excluded individuals or entities. (Section 1903(i)(2) of the Act; and 42 CFR section 1001.1901(b)) This payment ban applies to any items or services reimbursable under a Medicaid program that are furnished by an excluded individual or entity, and extends to:

- all methods of reimbursement, whether payment results from itemized claims, cost reports, fee schedules, or a prospective payment system;
- payment for administrative and management services not directly related to patient care, but that are a necessary component of providing items and services to Medicaid recipients, when those payments are reported on a cost report or are otherwise payable by the Medicaid program; and
- payment to cover an excluded individual's salary, expenses or fringe benefits, regardless of whether they provide direct patient care, when those payments are reported on a cost report or are otherwise payable by the Medicaid program.

In addition, no Medicaid payments can be made for any items or services directed or prescribed by an excluded physician or other authorized person when the individual or entity furnishing the services either knew or should have known of the exclusion. This prohibition applies even when the Medicaid payment itself is made to another provider, practitioner or supplier that is not excluded. (42 CFR section 1001.1901(b))

The listing below sets forth some examples of types of items or services that are reimbursed by Medicaid which, when provided by excluded parties, are not reimbursable*:

- Services performed by excluded nurses, technicians, or other excluded individuals who work for a hospital, nursing home, home health agency or physician practice, where such services are related to administrative duties, preparation of surgical trays or review of treatment plans if such services are reimbursed directly or indirectly (such as through a pay per service or a bundled payment) by a Medicaid program, even if the individuals do not furnish direct care to Medicaid recipients;
- Services performed by excluded pharmacists or other excluded individuals who input prescription information for pharmacy billing or who are involved in any way in filling prescriptions for drugs reimbursed, directly or indirectly, by a Medicaid program;
- Services performed by excluded ambulance drivers, dispatchers and other employees involved in providing transportation reimbursed by a Medicaid program, to hospital patients or nursing home residents;
- Services performed for program recipients by excluded individuals who sell, deliver or refill orders for medical devices or equipment being reimbursed by a Medicaid program;
- Services performed by excluded social workers who are employed by health care entities to provide services to Medicaid recipients, and whose services are reimbursed, directly or indirectly, by a Medicaid program;
- Services performed by an excluded administrator, billing agent, accountant, claims processor or utilization reviewer that are related to and reimbursed, directly or indirectly, by a Medicaid program;

* This list is drawn from the 1999 HHS-OIG Special Advisory Bulletin: The Effect of Exclusion From Participation in Federal Health Care Programs.

- Items or services provided to a Medicaid recipient by an excluded individual who works for an entity that has a contractual agreement with, and is paid by, a Medicaid program; and
- Items or equipment sold by an excluded manufacturer or supplier, used in the care or treatment of recipients and reimbursed, directly or indirectly, by a Medicaid program.

Consequences to States of Paying Excluded Providers

Because it is prohibited by Federal law from doing so, CMS shall make no payments to States for any amount expended for items or services (other than an emergency item or service not provided in a hospital emergency room) furnished under the plan by an individual or entity while being excluded from participation (unless the claim for payment meets an exception listed in 42 CFR section 1001.1901(c)). Any such payments actually claimed for Federal financial participation constitute an overpayment under sections 1903(d)(2)(A) and 1903(i)(2) of the Act, and are therefore subject to recoupment. It is thus incumbent on States to take all reasonable steps to prevent making payments that must ultimately be refunded to CMS.

Previous Guidance Regarding Preventing Payments For Goods and Services Furnished by Excluded Individuals and Entities

In a State Medicaid Director Letter issued on June 12, 2008, CMS notified States of their own obligation to attempt to determine whether an excluded individual has an ownership or control interest in an entity that is a Medicaid provider, and of States' obligation to report information regarding such excluded individuals to the HHS-OIG. In a State Medicaid Director Letter issued on March 17, 1999, and in a follow-up State Medicaid Director Letter issued on May 16, 2000 ("Medicare/Medicaid Sanction Reinstatement Report"), CMS described the HHS-OIG's authority to exclude persons based on actions taken by State Medicaid Agencies.

In the State Medicaid Director Letter dated May 16, 2000, CMS reminded States that the Medicare/Medicaid Sanction-Reinstatement Report, formerly known as HCFA Publication 69 and now replaced by the Medicare Exclusion Database (the MED) is a vital resource available to States for ascertaining and verifying whether an individual or entity is excluded and should not be receiving payments. The guidance also stated that the payment prohibition applies to any managed care organization contracting with an excluded party.

In a second State Medicaid Director Letter dated May 16, 2000 ("State's Obligation to notify the Department of Health and Human Services Office of Inspector General"), CMS reminded States of their responsibility to promptly notify the HHS-OIG of any action taken by a State to limit the ability of an individual or entity to participate in its program. *See* 42 CFR section 1002.3(b)(3).

Policy Clarification: States Should Advise Medicaid Providers to Screen for Exclusions

To further protect against payments for items and services furnished or ordered by excluded parties, States should advise all current providers and providers applying to participate in the Medicaid program to take the following steps to determine whether their employees and contractors are excluded individuals or entities:

- States should advise providers of their obligation to screen all employees and contractors to determine whether any of them have been excluded. States should communicate this obligation to providers upon enrollment and reenrollment.
- States should explicitly require providers to agree to comply with this obligation as a condition of enrollment.
- States should inform providers that they can search the HHS-OIG website by the names of any individual or entity.
- States should require providers to search the HHS-OIG website monthly to capture exclusions and reinstatements that have occurred since the last search.
- States should require that providers immediately report to them any exclusion information discovered.

This line of defense in combating fraud and abuse must be conducted accurately, thoroughly, and routinely. States must notify the HHS-OIG promptly of any administrative action the State takes against a provider for failure to comply with these screening and reporting obligations. *See* 42 CFR section 1002.3(b)(3). States can satisfy this obligation by communicating the relevant information to the appropriate Regional Office of the OIG Office of Investigations.

States also should inform providers that civil monetary penalties may be imposed against Medicaid providers and managed care entities (MCEs)[†] who employ or enter into contracts with excluded individuals or entities to provide items or services to Medicaid recipients. (Section 1128A(a)(6) of the Act; and 42 CFR section 1003.102(a)(2))

Policy Clarification: Calculation of Overpayments to Excluded Individuals or Entities

As stated above, Federal health care programs, including Medicaid, are generally prohibited from paying for any items or services furnished, ordered, or prescribed by excluded individuals or entities. The amount of the Medicaid overpayment for such items or services is the actual amount of Medicaid dollars that were expended for those items or services. When Medicaid funds have been expended to pay an excluded individual's salary, expenses, or fringe benefits, the amount of the overpayment is the amount of those expended Medicaid funds. We recognize that there may be instances when the connection between expended Medicaid funds and the

[†] This State Medicaid Director Letter uses the term "managed care entity" to refer briefly to managed care organizations (MCOs), prepaid inpatient health plans, prepaid ambulatory health plans, and primary care case management (PCCM). States should not confuse this abbreviation with the statutory definition of managed care entity which only refers to MCOs and PCCMs. *See* section 1932(a)(1)(B) of the Act.

items or services furnished by the excluded individual or entity are too attenuated to trace. When such circumstances arise, the overpayment is no more than the amount which the State is certain was paid with Medicaid dollars.

Where Providers Can Look for Excluded Parties

While the MED is not readily available to providers, the HHS-OIG maintains the LEIE, a database accessible to the general public that provides information about parties excluded from participation in Medicare, Medicaid, and all other Federal health care programs. The LEIE website is located at http://www.oig.hhs.gov/fraud/exclusions.asp and is available in two formats. The on-line search engine identifies currently excluded individuals or entities. When a match is identified, it is possible for the searcher to verify the accuracy of the match using a Social Security Number (SSN) or Employer Identification Number (EIN). The downloadable version of the database may be compared against an existing database maintained by a provider. However, unlike the on-line format, the downloadable database does not contain SSNs or EINs.

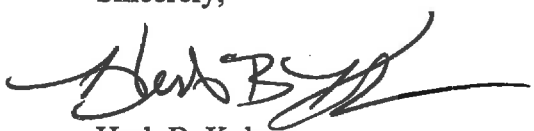
Additionally, some States maintain their own exclusion lists, pursuant to 42 CFR section 1002.210 or State authority, which include individuals and entities whom the State has barred from participating in State government programs. States with such lists should remind providers that they are obligated to search their State list routinely whenever they search the LEIE.

Conclusion

We know you share our commitment to combating fraud and abuse. We all understand that provider enrollment is the first line of defense in this endeavor. If we strengthen our efforts to identify excluded parties, the integrity and quality of the Medicaid program will be improved, benefiting Medicaid recipients and taxpayers across the country.

If you have any questions or would like any additional information on this guidance, please direct your inquiries to Ms. Claudia Simonson, Centers for Medicare & Medicaid Services, Center for Medicaid and State Operations, Medicaid Integrity Group, 233 North Michigan Avenue, Suite 600, Chicago, Illinois 60601 or claudia.simonson@cms.hhs.gov. Thank you for your assistance in this important endeavor.

Sincerely,



Herb B. Kuhn
