The Honorable Nikki Haley  
Office of the Governor  
1205 Pendleton St.  
Columbia, SC 29201

Dear Governor Haley,

I am concerned about the direction in which health care is headed. Those who suffer from incurable health conditions whose only relief lies in treating the symptoms must number in the thousands. Seeking a competent and compassionate physician who can prescribe medications that improve the functionality of these people must never be allowed to be confused with drug-seeking behavior.

Additionally, physicians should not be hindered with further restrictions on the freedom of choice to decide what type of insurance they will accept.

Sincerely,

Nancy M. Hawkins B.A.  
M.Ed.
