---

Last year the Executive Budget asked for \$75 million for Public Assistance and \$49 million for roads, for a total \$124 million. Maybe that's what she is thinking of?

The appropriations act that passed included \$72 million for Public Assistance and \$49 million for roads.

Hey Chaney,

Can you confirm the totals that the governor asked for in the budget last year? I have it as \$72 million for public assistance and \$49 million for roads, to total \$121 million. But for some reason the figure \$114 million is in my head from last year.

Can you check that for me?

Also, are you sending a statement from the governor? Or do you need a specific question for her to address?

Thanks!

~MTP
