Law Enforcement Training Council

**South Carolina Criminal Justice Academy
2013 Accountability Report**

Section I – Executive Summary

The South Carolina Police Academy was created in 1968 through the South Carolina Law Enforcement Division (SLED) with \$30,000 of money allocated by the South Carolina State Legislature. In 1970, the Training Act was enacted, which established the South Carolina Law Enforcement Training Council, and the South Carolina Criminal Justice Academy. In 1993 the Academy became a division of the South Carolina Department of Public Safety. On May 30, 2006 legislation reestablished the Criminal Justice Academy (CJA) as a separate agency overseen by the South Carolina Training Council.

1. Organization's stated purpose, mission, vision, and values:

Purpose: Provide both basic and advance training for South Carolina criminal justice personnel, and a certification process.

Mission: To train criminal justice personnel by providing mandated and advanced training to facilitate continuous certification process.

Vision: To foster a safer environment for the citizens of South Carolina through a prepared criminal justice population.

Values: Quality education system; more cost effective open and accountable government; more competitive business environment.

2. Major achievements for past year:

- a. Training/Registration – Reviewed the 12 week Basic Law Enforcement Program (BLE) to validate current curriculum and adjusted training material and schedules accordingly. A total of 15 BLE 12-week classes were trained graduating 800 officers who are better prepared and certified in Data Master and Standardized Field Sobriety Testing as well as the other required law enforcement skills. This is an increase of 16.8% over the number trained last year. There were 4 Basic Limited Duty (Class 3) taught graduating 144 officers. This is an increase of 61.8% over last year. All 3 Jail Instructors have national certification as Certified Correctional Trainers. There were 12 Basic Jail classes trained graduating 609 officers from our new Basic Jail Training classroom. This was a 27.4% increase over last year. The Basic Tele-Communications Training was reviewed for validation and changes were made to update the lesson plans and schedule. There were 9 Basic Tele-Communications Training classes graduating 130 officers. This was an increase of 32.7%. The Training Division provided 402 Advanced Training Courses during the year an increase of 65%; graduating 10,276 officers an increase of 87% with training being provided at the Academy and in the field throughout the state. Developed and implemented a new Jail Management Course. Revised and updated advanced training courses. The Traffic Safety Section expanded the Drug Recognition Program with the aid of National Highway Safety grant money. Utilizing the ACADIS officer records management system, designed an on-line registration process for

advanced training classes and created an open registration process for mandated classes. The Academy has improved the success rate of its students by putting more emphasis on practical hands on training and application within the various mandated and advanced training programs.

- b. **Standards/Testing-** The unit was successful in adding an additional Basic Law Enforcement class to online testing, so now two out of four Basic Law Enforcement classes that are in the 12 week training cycle are taking their tests online using computers. With the inclusion of all Basic Telecommunications classes (which was implemented last year), the unit has reduced costs associated with printing and saved manpower hours previously were devoted to creating and grading tests and can now be redirected to other job duties. This section was responsible for reviewing and approving significant revisions made to the 12 week Basic Law Enforcement training curriculum and the 2 week Basic Telecommunications Officer training curriculum, which included a review and some revisions to both curriculums' test questions. All mandated test items were coded so they are now electronically mapped, which also included a performance objective audit. This ensures all questions can be physically traced and located in the corresponding training manuals. The Academy still enjoys a close working relationship with the International Association of Directors of Law Enforcement Standards and Training (IADLEST) with one of its training staff functioning as the Southern Region Representative.
- c. **Media/Library –** All on-line training is now in a course format that allows an officer to print a certificate of completion or certification. There are currently 24 online courses, 4 are tested courses. We have also been successful in implementing online courses for the Academy staff in the ACADIS Learning Management System. The Library updated its detention and correction resources, as well as its legal and emergency vehicle response resources.
- d. **Certification/Compliance –** The Certification/Compliance has processed 1,869 new hires, 3,164 voluntary separations, 243 involuntary separations, 111 misconducts, 157 reserve appointments, and 335 reserve separations. The unit has also processed 296 Freedom of Information requests, 28 records subpoenaed for court, 243 transcripts, 69 curriculum request, and 168 VA applications. The unit has begun a complete transformation of the way records are stored with the use of the Scan Pro imaging system. Thousands of records are currently being scanned into a new document management system.
- e. **IT -** With the purchase of ACADIS (the Academy's officer records management system) the unit is currently assisting in the updating of Academy training records. ACADIS is a new records management system which accommodates all training, all training schedules, officer records, lesson plans, test scores and in-service records. The IT units dedicated the last year to training Academy staff as well as law

enforcement agencies throughout the state on the use of the system. In addition, the unit is continually working with the vendor to tune the ACADIS system to provide a better experience for the law enforcement community in performance and content. IT worked with the South Carolina Law Enforcement Division (SLED) to reestablish the Live Scan units in order to better serve our students going through the initial registration process allowing quick retrieval of over 1500 NCIC background checks for first time registering students. In order to better alert the staff in the case of a campus wide emergency, the unit has implemented the Emergency Text Notification System that will alert the staff via SMS Text messages to their cell phones in the case of a campus wide emergency. This is in addition to supporting over 20 active classrooms for Academy instructors and guest instructors, over 400 user devices, over 125 VOIP telephones, 46 Analog phone lines, 6 websites and 10 servers.

- f. Capital Improvement – Completed Phase V of the Academy Roof Renovations Project which included renovations to the 42 year old kitchen and upper-level dining room. These renovations included a new, sloped metal roof as well as interior upgrades to both the kitchen and upper-level dining hall physical facility and equipment. These upgrades allow for more efficient and economic operations. Two oldest elevators were upgraded to digital controls and current OSHA standards. Phase I of the underground hot and chilled water HVAC pipe replacement was completed replacing 25 year old steel pipes that were leaking.
 - g. Food Services & Student Housing – Began use of the newly renovated main cafeteria with two operational serving lines with improved service and cost reductions from \$1.68 per meal to \$1.31.
