[fightnthegoodfight](#) I was 54 and out of shape when my beloved adult children talked mom into taking the high road that crisp autumn day . After many stops to lower this fat girls heart rate so as not to burst outta my chest , finally made it to the top !!! To me : it was my Everest and I was so proud of myself and my kids were as well . However : the next day my body went into shock and I was sick , sick , sick .Toughest thing I've ever done . Lol
