Subject: call when can

---

Katherine -

I heard my old Boss was on the campaign trail with Romney in SC last week

I also see there is talk of a casino in SC - so of course if you need anything on that front - literally any person lawyer, owner, regulator etc, - then let me know.

Last, I have numerous people who can be helpful in finding a staffer and I called them but most will require me allowing them to contact another person for that and I wanted to run that by you first. I can also go through Bolton or Governor McDonnell which I have not done yet.

So call if you can

APL
