Hey Chaney,

Following up on this email I sent last night. We are still getting comments on this and when the state law is read, we don't see that there are exceptions. Will you give me a call or reply to this email with the info to help clarify why the CCU flag was able to be flown?

Thank you.

Hey Chaney,

We got a question about how can the CCU flag can be flown when state law says only the American and state flags be flown. Can you help us clarify this for viewers?

Thanks!
