Looks good. A couple of typos around the second highlighted addition. Thanks for your good work. Bob

I think the House is in complete agreement with Ken and Jeff's sentiment. We'd encourage the inclusion of Bob's language to highlight that the plaintiff's suggestion remains unconstitutional. Otherwise, the document seems perfect in length, substance and tone to us.

The recommendations from Bob and Emory are very good and we have no objection to working in them

in - particularly the idea that the Plaintiff's proposal is still unconstitutional. However, we would like to see the return remain very much in its current form with regards to both its brevity and substance.

It looks good. I only offer this sentence which I proposed earlier if you would like to insert.

This Order represents the first time in the Court's history that the Court has intruded upon the powers of the Legislature by ordering it to comply with a timetable which is unworkable, unattainable and most importantly unconstitutional.

Thanks, Emory. We were trying to keep it short and fairly soft. We will of course revise it to accommodate the consensus of the group.

Good work, Roland.

I do suggest that the Return a little more specifically address why the time deadline for legislative action as suggested by the Plaintiffs and their suggestion for a Court appointed experts do not avoid the separation of powers problems. If all of you prefer that it be more general on those points, I defer to you.

Thanks.
