I'm fine with both of these; do either of you have objections? The language appears to just clean-up agency responsibilities for tasks moved from DPS to the CJA.

Subject: Proposed clean up language for DPS CJA

Josh, the two attachments are basically clean up language dealing with the separation of the by Department of Public Safety and the Criminal Justice Academy. These items have been reviewed by DPS and CJA legal counsels.

If they meet with your approval, we will submit them to the House Judiciary Committee for action.
