tim.auten.16 Just go get married like everybody else does in South Carolina, just jump in your car and head head straight to the sticks, and find yourself some beautiful woods and get married with the bears and critters there to honor your wedding, and have a Blast! 🐻🐻🐻😊😊

rileynmcgill My favorite park! Hopefully they can start doing a better job warning people of the alligators. As much as I appreciate the park rangers, I have to tell everybody swimming there with their little ones about the alligators. And they have a lot of them. The park rangers do not tell the patrons unfortunately. The smaller gators will literally chase you and can be dangerous. There are no signs warning people or telling people to not feed the wildlife. And I think people do feed them.... that makes them not scared of people... People are always surprised when I tell them bc the park rangers literally say nothing about them. Unfortunately I know much more about the park than the rangers. Still my favorite park tho!!

rileynmcgill Please don't let your dogs swim here. The alligators will watch and follow your dogs. The rangers do not inform patrons of this... There is a 10 ft gator in there and prob 10 plus 3-6 footers in there. The 10 footer is really cool tho. I have pics... I've watched him/her grow from 5 to 10 ft over the last 6 years. The little ones will chase and bite you tho. The little ones are very aggressive and will go after your animals
