The upfront rate includes a river-view stateroom, daily shore excursions and cultural immersion, Internet service and all onboard meals (with complimentary wine, beer and soft drinks at lunch and dinner).

Half the staterooms boast full-size balconies.

The U.S. Centers for Disease Control and Prevention (CDC) has issued a travel alert for destinations with active outbreaks of Zika virus, including Mexico and certain countries in Central America, South America and the Caribbean.

Zika virus is transmitted by mosquitoes. The illness is generally mild with symptoms of fever, rash, joint pain and conjunctivitis (red eyes). The first confirmed case in the Americas of Zika virus infection was reported in Brazil in May 2015; it has since spread to more than 20 countries. Although hospitalization is rare, there have been reports of poor pregnancy outcomes in babies of mothers who were infected with Zika virus while pregnant, prompting the CDC to upgrade its alert for people traveling to those regions.

The CDC is currently urging pregnant women and women trying to become pregnant to reconsider travel plans to areas where Zika virus is active. For a complete list of Zika-affected areas, [click here](#).

All travelers are being urged to take extra precautions to avoid mosquito bites. The CDC recommends using insect repellents, especially those containing DEET, which provides long-lasting protection, and suggests that travelers wear long-sleeved shirts and long pants whenever possible. In addition, use air conditioning and window and door screens to keep mosquitoes outside, and consider sleeping under a mosquito bed net.

For more information on Zika and the alert, please see the CDC's website [here](#).

Here's some of the latest industry news...

**Holland America's Eurodam** has emerged from a dry dock with new features, including two music venues (Lincoln Center Stage for nightly chamber music and Billboard Onboard for upbeat shows by pianists, a guitarist and DJ) and the Gallery Bar, which offers cocktails amid eclectic art.

**Royal Caribbean** has revealed the entertainment lineup for the **Harmony of the Seas**, due in May. Guests can keep up with the social scene at Rydell High during productions of "Grease" and follow the adventures of Marvin Columbus (Christopher's fictional, down-on-his-luck cousin) at "Columbus, The Musical!" -- a nod to the style of Monty Python's "Spamalot." The Studio B rink will host dazzling, high-tech shows on ice.

**Crystal Cruises** has released its luxury river cruise itineraries in Europe. The inaugural sailings of **Crystal River Cruises** will take place on the redesigned Crystal Mozart, which begins sailing the Danube in July. Four newly built vessels will follow in 2017, allowing Crystal to add trips on the Rhine, Main, Seine, and other rivers. Itineraries will focus on longer stays and overnights in port and feature more daytime cruising than normally seen on river sailings.

**Carnival Corp.** released a sustainability report highlighting environmental initiatives across its 10 brands.

They include 10 goals for reducing the environmental footprint over the next five years. Among the commitments: further reducing carbon dioxide emissions. In 2014, Carnival announced that it had met an earlier goal to reduce emissions from shipboard operations by 20%, a year ahead of schedule.
