Now that the executive order is signed, does this work for the group? (The governor is fine with it.)

"The governor, who is working with state officials and industry leaders to monitor fuel availability, today issued an executive order waiving federal transportation regulations to ensure fuel delivery. Consumers can and should purchase fuel as they would normally – and as engineers work to repair pipeline issues, we will continue to monitor developments in the region."

On background: The governor issued an executive order last week to minimize the potential impact of the Colonial pipeline by waiving hours of service requirements. Today's executive order is attached.

One clarification question: How do we prevent price gouging before it starts?

Good with quote otherwise.

Does anyone have any issues with this?

"The governor, who signed an executive order last week to minimize the potential impact of this pipeline issue on consumers, is working with state officials and industry leaders to monitor fuel availability and prevent price gouging before it starts. Consumers can and should purchase fuel as they would normally. As engineers work to repair pipeline issues, we will continue to monitor developments in the region."
