Subject: Medicaid no response concern for my adult child with a disability ~ Website email from Michelle Johnson

Hello, I'm hoping you remember who I am when you hear my concerns. We have used Bryant Pharmacy for years for Daniel Johnson's supplies, equipment, and wheelchair. Medicaid is denying to pay for Daniel's formula he has been on for over 10 years, he is gtube fed only. There reason is he is now 19 and the formula is a pediatric formula. We have tried other formulas only to have allergic reactions, hospitalizations, and digestion issues. I have worked for Family Connection over 15 years. They are trying to help, over a week now, without anyone giving a response. Daniel has 5 cans of formula left. Seems like everyone is passing passing the buck. I'm trying to figure out where to turn for help. Calling the Medicaid office myself accomplishes nothing. No one knows who to speak to or help with our situation. Family Connection has been emailing back and forth with Michael Johns since Monday of last week. Please direct me to someone that could help before we run out of formula to feed Daniel. Thank you for your time in this matter, Michelle Johnson
