John, thanks. All is well, albeit going 100 mph. I'm happy to review and pass this on. Thanks

DV

Hi Danny:

I hope that you are well and that things are going great for you in the new role. As you may recall from before you left, I've been working with the HBCU's in the state to develop a diversity candidate pipeline and I received this resume from the provost at Claflin University. Obviously a very bright person but we have filled our internship needs for the year. I thought that perhaps she could be someone for your group but since I do not know your HR person I wanted to pass it along to you for internal forwarding. Also, perhaps you know others within state government who could use an intern such as this student.

Thanks,
John

Greetings John,
Enclosed is the resume of a potential summer intern from Claflin. Have a great weekend.
