Alzheimer's Disease - In Search of a Cure
Today's Caregiver magazine • September/October 2015

More than anyone else, caregivers understand the heartbreak of caring for a loved one living with dementia. With few treatment options available, researchers are working hard to better understand the disease and develop new drugs to slow its progress.

This special section features an interview with Alzheimer's research pioneer, Dr. Lawrence T. Friedhoff and introduces caregivers to what you need to know if you are considering enrolling your loved one in a clinical trial.

Special Focus: Alzheimer's Disease
In Search of a Cure
