Subject: Farm bill veto questions

---

Here are some questions concerning the governor's position on the farm aid bill as discussed with Brian.

Has the bill reached the governor's office yet?

Is the governor still committed to vetoing the bill. If so, what is the time frame?

Could I get a recap of why she is against the bill?

Did the governor say she would rather send federal money grant money back to Washington then have it used for farm relief?

Did she make the federal grant money received off-limits to farmers?

Any other remarks you might think are appropriate.

Thanks for your time in this matter.
