You wanna get together on Michelin this week? My schedule's better earlier this week than it is Thursday/Friday.

Alright. Also, I need to update on you on Michelin soon. I'm going to link Michelin and JW Ragley up this week. Michelin keeps coming back to K-12 education. They're less concerned about production and more concerned with highly technical jobs. They use workkeys for production, another more detailed product for the tech

I'm still waiting to hear when and where this thing will actually be. They sent out a document they called an agenda a week or so ago...the email said August 2nd, and then the attached Word doc said August 3rd. Neither had a time or location on it. They keep booking events without showing any flexibility for our schedules.

My Thursday and Friday schedules are both pretty bad, but I can potentially do a bit of shuffling, depending on what they're trying to accomplish and when. I probably can't be open on Thursday before about 10:30. Friday, I'd be open first thing, but then I have a 10AM meeting I can't move.

Are you participating? Lyons called and wanted me to ask you if you would open up the meeting and create a sense of urgency. You up for that?
