Gun violence. Every gun owner was a responsible gun owners until they decided to not be responsible. I believe that it would help to stop violence if all guns were required to be registered like we register automobiles. When a gun is bought or sold it would require a registration "title" transfer. A penalty of one year in jail for possession of an unregistered, altered or stolen gun. I also believe that any woman living in a house with a gun should make it or the husband/ boyfriend disappear. When push comes to shove, the gun comes out. It seems that guns make the man in today's society especially South Carolina.
