(The 800 # Gorilla in the Room No One Listens)*

Guideline for dealing with natural disasters, specifically, hurricanes and tornadoes.

Once the event has passed....

- 1. Immediately, stop what you are doing.*
- 2. Visit the disaster area.*
- 3. Make sure CNN and other media tag along to document how much you care.*
- 4. Embrace a citizen who has experienced a loss and tell him/her...
I FEEL YOUR PAIN, WE WILL REBUILD, YOUR GOVERNMENT IS
HERE TO HELP YOU IN YOUR TIME OF NEED, and any other
rhetoric you can think of.*
- 5. Call the Pst. and ask for help for your constituents.*
- 6. Go on national TV and beg for donations to repair preventable damages.*
- 7. Make sure those affected know how to contact your cronie and remember you during re-election time.*

As you are being driven to the next useless activity, REMEMBER....

- This disaster may have been prevented if existing technologies*
- had been implemented, unfortunately....*

*INACTION JUSTIFIES POLITICIANS EXISTANCE, THE USE
OF OTHER PEOPLES MONEY AND WASHINGTON BURROCRACIAS,
at the expense of its citizens.*

P.S. Don't feel bad about not caring, NO ONE ELSE DOES.

History repeats itself,

NASA, an engineer recommended not to launch the Space

Shuttle Challenger on account of the ambient temperature being too low and the seals may not hold, this could cause an explosion, management ignored him, the result was Challenger exploded seconds after launch, seven astronauts died.

BP, an engineer warned about cutting corners, even called the drilling..... "a well from hell ", as this could cause an explosion, management

ignored him, the result was a few days later Deep Water Horizon exploded, eleven workers died, causing the largest environmental disaster in US history and a serious financial problem for BP and the US economy.

The Bush Jr. and Obama administrations as well as the governors of affected states ignored PROJECT SAFA, the result has been.....

KATRINA, RITA, WILMA, GUSTAV, IKE, IRENE, ISAAC, SANDY and many of the tornadoes that have killed 2,400+, hundreds of thousands of properties destroyed, billions in losses, paid with taxes and deficit spending.

Tornadoes have destroyed or seriously damaged the following cites/towns...

Greensburg & Pleasanton, KS., Joplin, Branson & St. Louis, MO., Henryville & Marysville, IN., Harrisburg, Rochelle, Delavan & Fairdale, ILL., West Liberty, KY., Ooltewah & Smithville, TN., Moscow, OH., Dexter, MI., Moore & Ok. City, OK., Mayflower & Vilonia, ARK., Tupelo & Louisville, MS., Pilger, NE., Plattville, WI. and many others.

*IT IS CLEAR INACTION JUSTIFIES POLITICIANS EXISTENCE,
THE USE OF OTHER PEOPLE'S MONEY AND WASHINGTON
BUREAUCRACIES.*

*ALL 2016 POTUS CANDIDATES ARE AWARE OF PROJECT SAFA, AND
NONE CARE*
