---

Affordable health care will ensue from more competition in the insurance market--just like with cars, boats and houses. That's what I support, and I think our president supports it too. Please make sure that Congressman Duncan and Senators Graham and Scott know how you feel.

Lt. Governor Bryant, Americans want affordable health care. Insurance companies should not be allowed to dictate care for the sick. That should be the job of the physician. Am I asking too much? God bless you as you make decisions. Mary B Nix
