I am waiting for him to call me back – in the interest of saving time if he has a conflict, do you possibly have a second date next week?

Katherine: Sen. McGill said he can't hear you on his phone when he is traveling throughout his district – bad cell service, I guess. Anyway, he wants to get in to see Governor Haley at the earliest possible date and time. He has several things to talk to her about, including the Georgetown Port. Thanks for anything you can do to get this rolling!  
Hope you had a good summer.
