**Subject:** request for assistance.

Dear honorables NIKKIE and MICHAEL HARLEY,

Let me praise the almighty God who allow me to appear on this page today. I am from the DEMOCRATIC REPUBLIC OF CONGO ( DRC), but due to the unrest or the social-political instability within our country I had to flee my homeland with my family and come to live as refugees here in South Africa since 2008.

Being here in the refugee country, the attack or xenophobic events against foreigners started and we have been among the victims which God have protected to death, where a considerable number of foreigners have lost their lives : burnt on fire, assassinated using pangas and others their heads were cutted with big stones and others burnt using petrol etc.

We have lost all our belongs or properties during those events and the government of South Africa did not think about us , even the United Nations Refugee Agency did not think about our pains, they have only brought us at Shelter without any assistance since 2009, we still suffering with our families and forced to return to community where we were tortured.

We have no jobs when we have not a South African ID, we only beg peace jobs .

My request presently, Mme Hon. is to beg your pitiful and heart of compassion as you know the situations of immigrants to help my family in anyway you can.

I hope that this message will please, touch your heart of compassion and find anyway, let me repeat again ANYWAY you can my family form these pains and distress of South Africa.

Yours faithfully  
ABWE ATEMBO Jimmy
