

My family and I are coming to Ms. Haley for help in Anderson County. I understand this may seem little to some problems but my family has endured enough broken hearts with my brother just passing away to this situation. **We have also spoken to KEVIN BRYANT – State Representative**

Please take a moment to read.

My brother Brad Campbell (A GROWN MAN) calls crying everyday because he was going through a normal divorce to say the least, then it turned for the worst. He has been stripped of all his rights and has not seen his kids in 3 months because of the number 1 allegation a mother does to get sole custody. He has been at DSS office doors from the time they open. He has evidence and proof to justify himself and DSS will not speak to him telling him to get in touch with their attorney and recently has hung up on him. Never in a million years would we have thought the court system or the DSS office would not investigate properly towards a loving father and to have placed the children in a drug environment. Brad has paid for everything in full and has met all his appointed appointments. He is wanting DSS to give him a lie detector test something anything to see his children. We are begging for help!! Below is a false report sent to the news station for the mothers disappearance. We have a PI working with us and the locations of the children are worrisome. We are scared for the safety of the children and we will pay for peoples' time or anything. Please if you have a heart above all that Ms. Haley already has, the last thing she would ever want is to not see her kids because someone wants to damage her. Please Ms. Haley I pray you respond soon!

Sincerely,
