Mary Guidone We had SO much fun at this last year! Would highly recommend, even for families with younger kids. My son was 3 and had an absolute blast.

John Gorman Absolutly. It's been my experience that younger kids usually enjoy it more than the adults. It also exposes them to Nature with life changing experience. It's one thing to learn about the outdoors in school. However there is no substitute for real outdoor experience, one can see with their own eyes.

John Gorman No other way to experience things like this. Rainbow Falls. Gorges State Park, NC about 2 weeks ago. I know this is NC but one can literally hike to the SC line from this one.
