**Subject:** update on Kevin's surgery

---

Kevin came through the surgery yesterday with the best possible prognosis. Though the tumor was very large, it was slow growing and self-contained. The preliminary pathology report indicated no malignancy. Though his left side is weak from the surgery itself, there is no paralysis. The doctors anticipate a full recovery.

He should be in the hospital 4-6 days. Right now he's in ICU, but should be transferred to a regular room tomorrow or the next day. They cannot accept flowers in the ICU.

Here's the address for the hospital, since some of you were asking for it.

Kevin Devlin  
Swedish Medical Center  
501 E. Hampden Ave.  
Englewood, CO 80010

Thanks to all of you for your prayers and well wishes. Looks like our boy will be fine!
