The attachment provides some background on the issue – the draft bill appears on the final page. SLED has signed-off on that draft (I'll see about getting an official-looking letter to that effect...I just have an email at this point).

Also, I've talked Ken Moffitt through the matter and he said he'd be glad to discuss it with anyone on the Senate Judiciary Committee who has any questions.

In a perfect world, I'd like to get a sponsor in relatively short order, and then see if Sen. Martin would be willing to move this through Judiciary in January. Thanks.
