Friends,

Here is an interesting take from one friend.
ED

Trump should honor his campaign pledge to American citizens that he will build a secure wall on the border and deport every illegal alien. Repatriating illegal aliens to their countries of origin is not rocket science. We know where they are, and if they cannot produce a certified copy of their birth certificate and other corroborating documentation, then they are Mexico's problem, not ours. These deportations can be achieved over a couple of summers. Empty public schools can be used as processing centers during the summer months, and empty school buses can be used to transport the illegals to the border. This would give the dough-rollers at the Department of Homeland Security something to do and finally earn their paychecks. And if the bleeding-heart liberals complain, sign them up to take-in an illegal alien family and care for them from cradle to grave. That should shut them up. Without secure borders and the rule of law, American citizenship and sovereignty are meaningless. Time to let the world know that we the people are not going to allow Obama, Hillary or any of their globalist overseers "fundamentally transform" our exceptional Constitutional Republic into another Third-World hellhole. America doesn't have a broken immigration system, it has a broken federal government that refuses to enforce the supreme law of the land. It is time to hold our government's feet to the fire and make them honor their oaths of office. Because if our government is going to selectively enforce the laws of this nation, then perhaps it is time for American citizens to selectively obey every law enacted on Capitol Hill. At the rate our Republic is declining, what do we really have to lose?

Best,

Plan Friends and
Associates: Today Trump is flying

into the hornet's nest of Mexico to meet with
Presidente' Enrique Peña Nieto for either "a down
payment for the wall" (Joyce Riley), or a shakedown
compromise to continue allowing Mexico to send their down
trodden to Norte'

! Let's hope

Trump's security detail are wide awake and on their toes
while being in one of the world's most dangerous
countries. Hillary Clinton was invited, but has not given
Mexico an answer. Her medical and mental condition cannot
deal with extreme stress and if she begins the head bobbing
seizure in Mexico, the image will be exploited
worldwide. Therefore....what in the
world will be discussed between Nieto and

Trump? We can assume, a
compromise will be on the table, considering the fact that
Mexico benefits from billions of dollars sent south by
illegal aliens to their families, thus removing the Mexican
government from the burden of caring for the poor. The
"right to work" for illegal aliens will be the
highlight of the conversation and terrorism, criminals,
repeat offenders coming and going across the border, rapes
and murders will be the counter-punch by the Trump
team. THE WALL is the thorn in

Mexico's rump and Nieto will likely explain the
complexity and the non-feasibility of such a wall, maybe
going as far as explaining U.S. environmental and Mexican
concerns along the Arizona border where the Tohono
Reservation covers almost one third of the Arizona border.
Hopefully Trump's people have the data and plans for why
environmental policies can be
mitigated. The biggest laugh

that Nieto will express while meeting with Trump is how
does Trump expect Mexico to pay for the
wall? One possibility (WE)

have explored would be to take the funds from the
'Merida Initiative' each year to pay for the wall.
Approximately \$2.3 Billion Dollars of (OUR) tax revenue has
been appropriated for Mexico to fight the Drug Cartel, of
whom...many officials at the highest levels cooperate with
the cartel. It's a major scam that keeps the rich very
rich and the poor very

poor.[http://www.state.gov/j/inl/
merida/](http://www.state.gov/j/inl/merida/) Then of course, that

money is recycled with drug profits and comes back to the
U.S. through border banks and laundered to politicians and
others. FBI Director Comey and DoJ Lynch know all about how
that works, having worked together to clear the largest
laundering bank at the border for the

Clintons.[http://www.wnd.com/2016/07/
comey-has-long-history-of-](http://www.wnd.com/2016/07/comey-has-long-history-of-)

clinton-related-cases/ "Lynch and Comey both served as U.S. attorney in New York, Lynch for the Eastern District of New York, and Comey for the Southern District of New York. They crossed paths in the investigation of HSBC bank, which avoided criminal charges in a massive money-laundering scandal for which the bank paid a \$1.9 billion fine." How Trump and Nieto reach common ground on illegal aliens living and working in the U.S. (since Nieto certainly doesn't want them back), an obscured number that far exceeds the bogus 11 million, but more like 30 to 40 million conservatively, a compromise might occur during the meeting and will be revealed later today by Trump. Trump realizes that rounding-up 30 to 40 million illegal aliens would be a nightmare and equivalent to when Hitler began rounding-up the Jews, of which the Hillary campaign would assert, except what is different, the illegal alien trespassed a (so-called) sovereign country. America is the only country where a border crosser can enter, get health care, welfare and food stamps. Other countries, like Mexico and North Korea, they throw you in jail for a long time. Because of the very high possibility (and proof) that Jihadi's are entering the U.S. from Mexico, the border requires extreme measures to be taken, including a wall. But....how should Trump deal with the 30 to 40 million illegal aliens, of whom are NOT only Mexican, but from many other countries. Having each one to voluntarily provide their history, employment and addresses to a local government facility within 30 days and then travel with a bus voucher to the border to exit and then re-enter with a document for finger printing and I.D. issuance, with an expiration date for renewal....is plausible for Mexicans but not for Chinese, Pakistanis, and others. That would be half the battle though and all others (non-criminals) could do the same, but without traveling back to their home country. Trump will continue to stand by his original plan to round-up illegal alien gang bangers and other criminals and will deport them immediately. (I can see those idle FEMA Camps opening-up next year under a Trump administration). Of those without a criminal history, the 30 day period will elapse and several million will be in limbo for various reasons that could expose the criminal elements that live with them or the employment slave / human trafficking trade business connections. Trump would likely begin a secondary round-up of those that cannot produce the re-entry I.D.

card..... The end game is to stop further entry by foreigners that cannot enter legally for many reasons, which WE discovered during MCDC border operations.....most that cannot enter legally have major medical issues, diseases, and criminal histories. (see Pics) It's going to be a nightmare to deal with, but Trump has a plan and it will be interesting to hear what he has to say today. No matter what he says...Hillary will say it's "racist" and only bridges, not walls, can solve" (the invasion). Reagan's amnesty backfired and it has to be fixed..... https://www.washingtonpost.com/politics/trump-considers-last-minute-meeting-in-mexico-with-the-countrys-president/2016/08/30/5a694790-6f12-11e6-9705-23e51a2f424d_story.html NOTE: Look at the pic with the Mexican issued pamphlet for how to avoid detection From The Desk of Capt.
