

Dear Robert,

14-January-2016

Hope these few lines find you enjoying the best of health and peace of mind.

AMERICAN PRESS 27-October-2015, Page D3 (U N agency links hot dogs and other processed meat to cancer) "Bacon, hot dogs and cold cuts are under fire: The World Health Organization threw its global weight behind Monday that processed meats raise the risk of colon and stomach cancer and that red meat is probably harmful too." ANOTHER PUBLIC DISCLOSURE BY NO-NAME SCIENTISTS! The United Nations does not have a legitimate research team. The United States does not give them enough money to do such work. THE UNITED NATIONS IS JUST A LIBERAL PIPE DREAM! Actual diets never get mentioned. There is no discussion about fiber content which is important to digestion and the oral cavity. Fiber is essential to colon cancer prevention. GET US OUT OF THE UNITED NATIONS AND SAVE OUR CATTLE RANCHES!

Maybe God punished South Carolina for taking down the Confederate Flag. A silly thought comparable to the logic of rewriting history. If you don't know where you have been, you are not going to know where you are going. The Confederate States are lacking in leadership. Our military bases are being moved to the north and west and clever politicians disguise the trend with false assumptions. Southern States need Federal Dollars Too. The improvements in the Panama Canal will make it easier to move Naval Vessels into the South Pacific - a place of increasing potential for war. Groton Connecticut has the Coast Guard Academy, a submarine base and school along with the University of Connecticut that gets a lot of Federal Dollars. It takes a sub three days of surface sailing to reach the tip of Florida from Groton and New London. The Mississippi River channel is deep enough at Baton Rouge to have a submarine base constructed there. A sub from Baton Rouge could by surface travel reach the Panama Canal entrance in two days - less than the week required from Groton. BUILD MORE MILITARY BASES IN DIXIE! The South lost the war for Independence but we can participate in PORK BARREL too.

Sitting in the front yard at night, it is possible to see the decline in air traffic. A fact related to economic slow-down. Still time to plant the 'turf turnips'.

DeRidder has the Court House, the Parish Library, the auto license bureau, the sheriff's office and the parish fair grounds. Sugartown needs some tax dollars too. A sheriff's sub station and highway patrol office, a civic building and an indoor swimming pool. Orange, Texas has a natatorium. Children in the Sugartown area need a place to learn to swim. There are several public schools within minutes of Sugartown. Sugartown lost the Post Office.

David Vitter has an A-Plus rating from the National Rifle Association. Edwards is popular in Amite but not so much in Covington and Red Stick.

The Post Office at Dry Creek is in need of modernization procedures now. Postal machines that can produce a standard printout of individual transactions. Personnel need training to operate the machines and be aware of regulations that are important to the postal consumer. Postal consumers in the Dry Creek-Sugartown area pay the same rates as anyone else AND DESERVE THE SAME CONSIDERATIONS. CM receipt 7015 0640 0007 5611 0162 is not complete. The total cost of postage is not listed. On the date of 23-October-2015, I was told by the Post Master at Dry Creek that my typed form number 3800 was old and out of date. The Post Master created a new composition in her hand. Seniors need to have competence demonstrated in all FEDERAL OFFICES and transactions. Being rural does not mean having excuses for variances in performance.

The new SPEAKER is a 'fence straddler' just like the old one. A SOUTHERNER IS NEEDED FOR INTEGRITY AND HONESTY!

Remember thy CREATOR in the days of thy YOUTH!. Drugs, alcohol, counterfeit money, degeneracy, greed - no wonder we have disturbed young people drawing wrong conclusions from modern media.

Have a good day Robert.

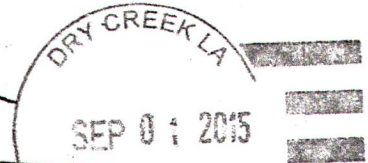

John
