HughesON Managed Security (2).jpg

Dear Nikki,

Yes, viruses and hackers can cripple an entire network in seconds. But some of **the greatest threats to government agencies are outdated network security policies and infrastructure.**

With [HughesON™ Managed Security](#), your agency benefits from the latest technologies, services, and strategies designed to **safeguard a network and its data, minimize the time to respond to threats, and save administration costs!**

**HughesON Managed Security delivers. . .**

- Highly secure network services and remote access options
- Full range of PCI DSS-compliant WAN services to help secure PCI certification

- Wireless PCI Intrusion, Detection, and Protection services
- State-of-the-art encryption
- Extensive managed firewall services
- Centralized network architecture to reduce security threats

**Ready to ensure adequate protection for your agency? Call us at 1-888-373-0133 or [let us know how our representative can contact you.](#)**

**All that protection from one small device?**
