Attachments: Recommendations for Gear (3).doc

---

I know this is just an opening salvo to get something on paper so am hoping we can get some more meat on the bone in terms of details, etc....some vignettes examples from other states, other agencies in SC, or the private sector, etc. Maybe more recommendations as well when Marcia gets a chance to dig in.

I threw in some notes in the document. Also looks like we have more time (pushing back release 2-3 weeks) and may need to cancel next Tuesday's meeting....will know soon.

**Subject:** Recommendations for Gear

Okay, here's a draft. As you will see I'm long on words and short on dollars. Although, I think Marica might be add some dollar detail to this set of recommendations.

Anyway, you guys take a look and send me any thoughts you have.

Gratize,

Sean
