

Calling all Members of Congress!

Senators and Representatives, Liberty Day Institute needs you!

Founded in 1996, we are a national, nonpartisan, 501(c)(3) nonprofit that offers civic education materials and classroom presentations.

We are working with Members of Congress on two exciting projects: Constitution Day PSAs and Liberty Day Hangouts.

Liberty Day Hangouts are an exciting opportunity for elected officials to reach potentially **thousands of students** at once in a presentation on the U.S. Constitution and American government. Lasting up to 30 minutes, these webcam-based talks will enable elected officials to speak live and directly to the students you represent, in class, by utilizing the easy-to-use web program, *Google Hangouts on Air*.

In talks taking place on or around Constitution Day (Sept. 17), officials will first discuss the Constitution and then field several questions written by students and provided in advance to the Liberty Day Institute. The Hangout will be recorded and made immediately available for replay and sharing! We are thrilled to provide this exciting opportunity for you to engage with younger constituents in a seamless, positive, and educational experience **right from your congressional office!**

"I encourage Liberty Day Institute to continue its efforts and outreach with educators and community members to ensure that future generations impart an understanding of our Constitution. Thank you for your great work."

– Letter from **US. Rep. Ed Perlmutter (CO-7)**

"Through efforts like these, we ensure that our leaders of tomorrow understand the significance of this document. It is the cornerstone of our great nation." – **PSA by Gov. Matt Mead (WY)**

"On this Constiution Day, may we each look to our enduring founding document as we seek to safeguard our liberties." – **PSA by Sen. Mike Lee (UT)**
