Public	Vacant			

This board governs the licensing requirements to become a landscape architectural examiner. Most seats on the board represent landscape architects, however the two vacant public member seats represent those that are not involved with the industry. We are looking for two people that are interested in landscape architecture, but have are not licensees and do not have a financial interest in the industry.

This board governs the licensing requirements to become a chiropractor. We are vetting potential candidates to fill the General Public seat on the board. The purpose of this seat is to create representation on the board for those not involved in the industry. The General Public candidate may not be a chiropractor, nor may work in the medical industry. Alternatively, we could reappoint E.J. Mercer.

South Carolina pays dues to be a member of the Interstate Mining Compact. The compact advises member states of the natural resources and environmental issues associated with the mining industry. DHEC works with this commission- Ted suggests that Templeton recommend candidates to fill these seats. Senate confirmation is required. I would recommend that we reappoint those currently serving if Templeton and Ted agree.

The Council of Advisors on Consumer Credit consists of 16 members who are appointed by the Governor. One of the Advisors is designated by the Governor as chairman. Currently, there are three vacancies. The Council advises and consults with the Administrator concerning the exercise of the Administrator's power under the South Carolina Consumer Protection Code and may make recommendations to the Administrator. Members may also assist the Administrator in obtaining compliance with the South Carolina Consumer Protection Code.

I recommend that we reappoint those members that continue to attend meetings. Lybarker would likely be able to help us with the vacancies.
