Subject: Things in Gen..

Hi Ms. Gov. Haley,

I am Chris Dragity, I move d here about 1 year ago into the Myrtle Beach Area. I wanted to mention or suggest I like your Ideas.. I want to see MB become the area for families it should be and can be. I come from the NJ shore area so I do know what it can be like. In the State of SC I would like to see some changes acure some day soon.

Vehicle Inspections. There are way too many unsafe vehicles on our roads and we need standards for air and safety. Not to mention revenue to the state.

Mopeds and Golf carts: Register these and make them accountable. They drive almost everywhere in MB and really can be a safety hazard and danger to automobile lanes everywhere..

More Police presence during any event. During prior and afterwards. I find folks tend to ignore common everyday speed laws and traffic laws. I just don't see enough everyday presence out their. You might have to raise taxes a bit to get it done. I think it would be worth it!!

Hotels along the Grand strand. They need to upgrade or get out of the business. I vacationed here 3 years ago and was astonished the pictures they post on their sites regarding the rooms are 100% misleading to the consumer. They make you pay up front so you can't get your money back and force you to stay at their hotel. I won't mention names but I was very upset. They all are doing it. They'll rent to anyone too make a dollar and the rooms are substandard to most.

I like it here in MB, we can make it better in time. I agree Bike fest is not the way to do it. They tend to always get out of hand and let's face it regular families don't like the intrusion to their lives here and don't like their invasion to our cities. I'll vote for you in your next election. Let's keep it moving forward and make MB a better place for all tourist and home owners..

Thank you.

Regards,

Chris Dragity
