

Dear Governor Haley,

I think we should take in refugees. I believe that because they need help and without it they might die. Everyone thinks that we should not take in refugees because of what happened in Paris, France. Just because they're Muslim doesn't mean they will attack us. South Carolina should be helping refugees. Many of the people fleeing Syria are children and families. I care about the refugees and I feel that we should work as a group to help these people. I think we as a nation should help fight ISIS. South Carolina should be supporting refugees. I think you should take in refugees.

Sincerely,

Johnny Buck
