Description /Significant Features:

Circa 1945 single block commercial building. It is rectangular in plan and is clad in rusticated stucco. It has a front-gabled corrugated metal roof that is concealed by a simple stepped parapet. There is an inset portion on the parapet for painted signage but it is currently not in use. The front elevation is symmetrical with a deeply inset front door. The door is a replacement and has an arched wood surround which appears to have once contained sidelights and a transom. Two arched windows flank the inset doorway. The windows are arched with vertical two-over-one double-hung sashes and stone sills. The glass panes of the windows have been painted over. This resource appears to be vacant or used for storage. It is attached to Resource 0035 on the east side and Resource 0034.03 on the west side.
