- The Number 1 issue for businesses in choosing where to locate or expand is a sustainable, highly educated workforce of technicians, managers, engineers and entrepreneurs that constantly upgrades for a company to be globally competitive. South Carolina needs skilled workers---especially middle-skilled workers. We have the jobs---we just to find qualified people to fill them. We have assembled a panel of business professionals representing Manufacturing, Construction Small Business Healthcare and IT to discuss their concerns and issues with finding workers.*
- 11:45am – noon** **Closing Comments**
