Subject: Blue Alert H4636

Katherine,

If everything goes well the House will concur with the minor Senate amendments on the H4636 tomorrow and send the bill to the Governor for her consideration. I would like to request a public "bill signing"; there are a number of law enforcement agencies that would like to be present.

Thanks for the consideration and I look forward to hearing from you. Even though we are on furlough next week, I can make arrangements to be here.

Thanks.
