---

To whom it may concern,

My name is Ruthanne and I am studying Public Relations at the University of Southern Mississippi. I am taking a journalism class, and our current assignment is to do a follow up story on the subject of our choosing. I have chosen to write about after effects of the historic flooding that recently occurred in your precious state, and am specifically looking at the mosquito problem that is a result of standing water. I would greatly appreciate any information you would be willing to give me on how this issue is being handled. Although this is a small class assignment, I am trying to get as much experience as possible out of it.

Thank you for your time,

Ruthanne
