Subject: DNR interview request

Good morning Nicole,

We would like to request a short on-camera interview with Governor Haley about landscape conservation. We are producing a documentary about this topic and thought the governor would be interested in this since it focuses on the land that has been protected through mitigation with Haile Gold Mine, Volvo and Boeing. We only need 15 minutes of her time and would send the questions in advance. We are filming this in September so please let me know if she can fit us into her busy schedule next month.

Thank you,

Danielle Kent
