FALL ON HILTON HEAD

By Kim Davis

PalmettoDunesOwners.com

Wow.....what a summer we have had on Hilton Head Island! We had incredibly mild weather, fantastic beach days and a superb golfing climate. This Fall promises to be even better....

Real estate on Hilton Head is selling at a record pace. Drastic reductions in inventory and historically low interest rates are driving our market. Add to the fact that millions and millions of aging baby-boomers are looking for second and retirement homes (many of them are looking at Hilton Head Island for their future homes) and prices appear headed upward.

To date we have sold 729 homes on Hilton Head and 728 villas and we still have the prime Fall selling season ahead of us. We could reach the 2000 property plateau for home and villa sales on Hilton Head for one year!

If you've been thinking of buying your island paradise some day please consider the Fall of 2013 to make your dream of having an island home a reality.
