**South Carolina State Parks**

at 13:00:00 on 3/04/2015 UTC · 🌐

**DID YOU KNOW?** The North American Bison is not born with its signature shoulder hump. These humps start to develop at about two months of age. They are made of strong muscles. Traditionally, bison use these muscles to help them push aside snow with their enormous heads. Come out to the Animal Forest today to see these impressive creatures!

**Tree Merwin** ok where are these at in south carolina

at 0:38:14 on 3/05/2015 UTC

**South Carolina State Parks** Tree Merwin, these bison are located at Charles Towne Landing State Historic Site in Charleston, SC. When the settlers arrived at Charles Towne in 1670, bison actually roamed this area! <http://southcarolinaparks.com/ctl/introduction.aspx>
