Subject: Another Thing

---

In the 13-14 Flat Requests tab, or whichever one is the one where the changes are made that feed everything else...let's have a Notes column that lets us keep rough track of why we made whatever change on that particular line. IT should be immediately to the right of the column where we're entering the Executive Budget's GF number, if possible (or the Executive Budget's GF Adjustment column, if that's what drives things). Thanks.
